SUMMARY

Frontend Developer with 2+ years of experience building scalable web applications using React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, and the MERN stack. Improved application performance by 30% through optimized code, state management, and Redux Toolkit. Experienced in converting business requirements into responsive and accessible user interfaces with cross-browser compatibility and mobile-first design.

WORK EXPERIENCE

Datagain Services

12/2024 - 12/2025

React JS Developer

- Led frontend development for Translation and Billing Management portals, supporting 500+ daily active users with React.js and Next.js, delivering scalable web applications.
- Programmed interactive dashboards using React.js, Next.js, and RESTful APIs, improving data loading time by 25% through optimized API requests and efficient state management.
- Integrated real-time data synchronization using Axios and asynchronous data handling, ensuring 99.9% data accuracy and consistent client workflows.
- Collaborated with cross-functional teams (Product, Backend, QA, Design) to define technical requirements and sprint roadmaps, achieving a 100% on-time delivery rate for all sprint milestones.

ATEN Info Solutions

1/2023 - 9/2024

Associate Software Engineer

- Modernized legacy user interfaces into responsive Single Page Applications (SPAs) using React.js, increasing mobile user engagement by 40% through mobile-first and responsive design principles.
- Configured complex state management with Redux Toolkit, enhancing application stability and reducing crash rates by 15% through predictable state handling and optimized data flow.
- Partnered with UI/UX designers to create reusable, precise components, resulting in a 20% increase in user session duration and improved interface consistency.
- Refactored and modularized the frontend codebase with a component-based architecture, cutting future development effort by approximately 10 hours per week and improving long-term maintainability.

VIVARTTANA TECHNOLOGIES

5/2022 - 7/2022

Associate Software Intern

- Contributed to the frontend architecture of a high-traffic e-commerce platform, translating Figma designs into clean, semantic HTML5 and CSS3, ensuring responsive layouts and cross-browser compatibility.
- Identified and resolved 50+ critical UI bugs during the QA and testing phase, significantly improving application stability, usability, and pre-launch quality.

SKILLS

- Frontend: React.js, Next.js, Zustand, Redux Toolkit, HTML5, CSS3, JavaScript (ES6+), TypeScript, DOM Manipulation, JSON
- UI Frameworks & Styling: Tailwind CSS, Material UI (MUI), ShadCN, Bootstrap
- Backend & Data: Node.js, Express.js, REST APIs, Axios
- Tools & Dev: Git, GitHub, VS Code, Postman, Chrome DevTools, npm
- Other Languages: Java, C++, C

PROJECTS

Localization Management System

- Coded a secure, scalable SaaS portal using TypeScript, React.js, Next.js, and Shadcn UI, standardizing services for 200+ clients and enhancing operational efficiency.
- Engineered role-based authentication and authorization in Next.js, enforcing strict data security, access control, and compliance with best practices.
- Hosted and maintained web applications on AWS EC2 instances using proxy servers (e.g., PM2), ensuring high availability and reliability.
- Automated deployment workflows with custom scripts for auto-redeployment on server restarts, reducing downtime and streamlining release processes.

Digital Billing System

- Developed an Invoices screen using React.js, CSS, and Zustand for state management, allowing users to view, create, and manage invoices with structured JSON data.
- Built a Plugins management interface to fetch and integrate data across multiple platforms, including Gmail and AWS S3, using REST APIs and JSON-based workflows, streamlining third-party data integration and plugin management.

Business Development CRM

- Spearheaded the creation of a real-time data visualization dashboard using React.js, Tailwind CSS, and Axios, improving data accuracy by 7% identified by cross-referencing two data sources.

EDUCATION

Sharnbasva University

June 2019 - Oct 2022

Bachelor of Computer Applications (BCA) - 8.2
